

Remote Generator Emergency Shutdown Kit

GENERAC®

Generac Accessories Remote Generator Emergency Shutdown Kit

Model: G0089350

DESCRIPTION

This kit includes all components needed to install a remote generator emergency shutdown switch to Generac Standby Generators with Evolution™ 2.0 controllers.

- 10-26kW Generac Standby Generators, air-cooled

Included in Kit

- Instruction sheet
- Wiring harness
- Two spade connectors
- Rocker switch
- Mounting hardware
- Decal — Generator Emergency Shutdown

FEATURES

This kit was designed for easy installation of a remote shutdown switch for a standby generator where it is required by the local authority having jurisdiction (AHJ). This kit includes a relay which allows for a reliable signal for longer distances from the generator. This product is supplied with a 1 year limited warranty.
