

LTE LP Fuel Level Monitor

LTE LP Fuel Level Monitor
Model #: G0070090 (UPC: 696471091922)

A critical part of maintaining your generator is making sure there is enough fuel to get you through unexpected power outages. Generac now offers an LTE Fuel Level Monitor to measure the amount of LP fuel remaining in the tank. The Tank Utility monitor integrates with Mobile Link to provide tank level readings, offering customers the ultimate peace of mind.

FEATURES & BENEFITS

- Simple, user-friendly installation in less than 5 minutes
- Reliable 4G LTE cellular connection ensures coverage in hard-to-reach areas
- Compact, sleek design installs on both above-ground and in-ground tanks
- Magnetic back for direct LP tank mounting
- Propane tank level viewable with any Android/iOS device or computer
- Clear LED feedback on the monitor for cellular connection setup
- Water resistant to IPX8 standard
- Rated for harsh outdoor environments from 140°F (60°C) to -40°F (-40°C)
- Field-replaceable AA batteries with 5+ years of battery life
- RD3 gauge-compatible – if you do not have an RD3 gauge, a replacement gauge can be ordered and easily swapped out
- Integrates with Mobile Link to view home standby generator tank level data
- Coverage for all major US cellular carriers (Verizon, AT&T, T-Mobile, US Cellular) and regional carriers
- Trending capacity and historical usage info*
- Real time alerts for low LP fuel level monitoring*
- Usage reports to monitor LP fuel usage per month*

*Available through the Tank Utility mobile app
